DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. **Claims 22-29**, drawn to a patient interface device, classified in class 128, subclass 207.13.
- II. **Claims 30-37**, drawn to a system for delivering a breathing gas to a patient, classified in class 128, subclass 204.18.

2. The inventions are distinct, each from the other because of the following reasons: Inventions II and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the combination requires the patient interface device to be coupled to a conduit and a gas flow generating device. The subcombination has separate utility such as patient mask for use in receiving exhaled air from the patient and is not required to deliver breathing gas to a patient, as does the combination.

3. Because these inventions are distinct for the reasons given above, have acquired a separate status in the art as shown by their different classification and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

Art Unit: 3743

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
